THE WORLD'S BIGGEST SOCCER TOURNAMENT IS COMING!

Held every four years, this global soccer tournament is the largest international competition in the sport and with Canada, the United States and Mexico automatically qualifying as host nations, fan excitement is expected to be strong.

This creates a great opportunity to drive interest at retail. Every match will be available through Sport Select on both **PRO•LINE** and **OVER/UNDER.**

PRO•LINE

Players choose the home team, visiting team or a tie (remember: a tie is determined by the score at **the end of regulation play**, including injury time. **Overtime and shootouts do not count).**

OVER/UNDER

Players predict whether the total combined score will be over or under the posted line.

We'll also offer a variety of Futures options, including tournament winner, group winners and more!

With international pride on the line and strong fan engagement expected throughout the tournament, be ready to let customers know they can Bet on the Original with Sport Select, helping you boost sales and earn commissions along the way.

LOTTO SPOT SPRING CLEANING TIPS

With spring in the air and summer just around the corner, it's a great time to refresh your **Lotto Spot** area! A quick tidy-up can make a big difference – and your customers will notice.

OUT WITH THE OLD

Remove any outdated posters and point-of-sale materials, including seasonal signage, holiday-themed posters and Dream Big pieces to make room for new materials.

FRESHEN THINGS UP

Give your Lotto Spot area a thorough clean. Only use approved cleaning products, as some cleaners can damage equipment and/or screens.

TAKE STOCK

Review your lottery supplies and make sure everything is ready for play. Confirm that selection slips for all games are available at your selection table, and that the most up-to-date versions of **LottoFacts** and the **Playbook** are available by QR code. Consider removing unnecessary items to reduce clutter and create a more inviting space for players.

Doing a deep spring clean is a great way for you to freshen up your store, organise stock, and create a clean, welcoming space for customers – we thank you for your cooperation and continued support!

CALL BACK SERVICE FOR RETAILERS

To help you stay productive on site, Retail Spot offers a call back request option during busy periods. Once you've been in the queue for six minutes, you will hear:

"Sorry you've waited so long. To leave a call back number and keep your place in line, please press one or continue to hold for the next available agent."

If you choose a call back, you'll confirm your phone number and record your name. Your call will keep its place in the queue and will be answered in the order received.

Call back service is available Monday to Friday, 7:30 am CT – 4:30 pm CT.

We'll make two attempts to reach you. If:

- **There's no answer or a busy line, we'll try again after 30 minutes**
- **There's no answer on the second attempt, no further calls will be made**
- **We get your voicemail on either attempt, we'll leave you a message and won't call again**

This service helps you to continue serving your customers without losing your place in the Retail Spot queue – it's a win-win situation!

SAFETY AWARENESS MONTH
PROTECTING YOUR STORE

June is Safety Awareness Month. This month – and always – remember: your safety, and that of your coworkers should always come first. If a theft occurs, do not intervene or pursue the individual. No ticket or cash amount is worth the risk. **Stay calm and follow your store's reporting procedures.**

Scratch & Win tickets are high-value items and can be a target for theft. Keep your **merchandiser locked** after each sale and securely attached to the counter. Always complete payment **before** handing over tickets, and **stay alert** to distraction tactics.

Keep control of your tickets when restocking and store all active and inactive books in a locked area and/or safe when not in use.

Safety Awareness Month is a timely reminder that staying alert and following safe handling practices helps protect both people and product.

TROUBLESHOOTING YOUR TICKET PRINTER

If you're experiencing issues with your ticket printer, a few quick checks and best practices can help prevent errors and keep things running smoothly.

Important reminders:

Replace the paper immediately when you see the end-of-roll stripe.

Keep the printer pathway clear.

Remove all tape or adhesive from the paper before installing a new roll.

Avoid touching the ticket while it is printing.

Use only WCLC-approved ticket stock. Non-approved paper may delay prize claims.

If a ticket does not print, don't immediately reprint it. Take a reprint once the printer is functioning again.

Rotate paper inventory so older stock is used first.

Important: Retailers are charged for tickets registered by the central system. Please ensure paper stock is loaded correctly.
